Clark C. Doughty, According to His Statement Spent \$102 of His Own Money Upon a Bill Passed By House But Killed In Senate—Several Received and Spent Nothing.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, June 26.—Less than a dozen lobbyists filed their statements of expenditures in connection with legislation before the last assembly, with the secretary of state today, which was the last day when they may be received legally.

Milton A. Warren of Millersburg, former representative declared in his statement he received \$1010 from the Ohio Naturopathic Association. Clark C. Doughty, of Columbus, received \$227 and spent \$329, or \$102 of his own money, fighting for the 25 cent state fair admission bill. Doughty added in a note to the secretary of state that he recommends the system of having only the house in the legislature; state fair bill passed the senate, but was killed in the house. Fred H. Kaley and Herbert Buckman received and spent nothing in their work for the Ohio Automobile Association. Charles H. Brown, of Columbus, spent \$126 in behalf of the Moore mechanics' lien law. C. E. Winteringer, of Columbus, received and spent nothing in work connected with railway legislation.

The anti-saloon league spent \$561 for postage, printing and traveling expenses of agents working for temperance legislation. Wayne R. Wheeler, John White and George Fisher, of the anti-saloon league, used \$100 in traveling and hotel expenses.

COLLEGE MEN TO  
LEAVE SOON FOR  
RELIEF SERVICE

(ASSOCIATED PRESS TELEGRAM)  
New York, June 26.—Two groups of college men leave here on steamers for medical relief service in the war. The largest of the groups composed of 35 graduates of the Harvard medical school and 75 nurses, leave on board the Holland-American line steamship Noordam for three months service with one of the British army hospitals. They expect to begin their work by July 4 and to be relieved by men from John Hopkins or Columbia University in October.

The other group, composed of 18 students from Columbia University, six from Princeton and one from the University of Pennsylvania with 25 Serbian interpreters and assistants leave on board the steamship Themistocles. They constitute the Columbia University Serbian Relief Expedition bound for Nish, Serbia, and are sent by Serbian Agricultural Society, the Serbian American League and by individual Serbians in America. They will distribute sanitary clothing, food and seeds to residents of the northern part of Serbia which has been devastated by the war.

Secretary Daniels Appeals  
To American Naval Officers  
To Learn from European War

(ASSOCIATED PRESS TELEGRAM)  
Newport, R. I., June 26.—In an address at the opening session of the Navy War College here today Secretary Daniels appealed to American naval officers to profit by the lessons that are being taught by the great war in Europe and to fearlessly discard all theories which fail to stand the acid test. He referred briefly to the navy program for the coming year and expressed confidence that congress would authorize any increase recommended.

"In personnel and material the navy is larger than ever before," Mr. Daniels said. "Its men are trained and fit. Its experts in every department are active to remedy any de-

Auto Racers Break All  
Records In a 500-Mile  
Grind at Chicago Today

(ASSOCIATED PRESS TELEGRAM)  
Chicago, June 26.—Every indication was that all records for 500 miles on an auto speedway would be broken today after the first half of the great race that started at 10:30 o'clock this morning, with most of the world's fastest drivers as contenders.

Thousands of persons at an early hour today were on their way to the new two mile automobile speedway, advertised as the fastest in the world. Twenty years ago a so-called "horseless carriage" driven by Chas. Duryea, of Springfield, Mass., plowed through snow and slush on the roads between Chicago and Evanston and won the first automobile race ever held in this country. His time for the 40 mile route laid out was at the rate of 7.5 miles an hour.

Today, a generation later, the finest creations of the engineers of three countries met at 10 o'clock to battle for \$54,000 in prize money. The drivers have two 500-mile marks to shoot at. First, comes the mark of 1913, by Resta, Chassagne and Guines, who relieved each other at intervals of 12-hour grind, and the Indianapolis record of 89.84 miles an hour, established by Ralph De Palma who won the Hoosier classic this year.

Predictions were made that the De Palma record would be overwhelmed, based on practice records over the board track. Enthusiasts have declared that the winner would average 97 miles, but the more conservative questioned whether the Brooklands record would be beaten. The start of the race was delayed

half an hour to allow Bob Burman to replace a broken piston rod.

At 9:30 the park way space around the big oval was filled with automobile parties and the grand stand was filling slowly. A mist which hinted at rain, apparently discouraged the crowds from coming early.

Keene, Hughes and Devore driving P. R. P. entries withdrew before the start owing to accidents to their cars in practice yesterday. They reported to Fred Wagner, the starter this morning that they had been unable to make repairs overnight.

The start was made on the stroke of 10:30, with Burman in the race. A new competitive speedway record for one hundred miles, it was announced, was made by E. Cooper at the rate of 104 miles an hour or eleven miles faster than the previous record held by DePalma. Cooper was in the lead at 120 miles, followed in order by Resta, Porporato and Van Raalte.

At 140 miles the leaders were: (Continued on Page 2, Col. 2.)

200,000 Men Will be Thrown Out  
Of Employment by a Big Strike  
In Chicago's Building Industries

(ASSOCIATED PRESS TELEGRAM)  
Chicago, June 26.—A general shutdown of Chicago's building industry, which, it was said, will throw out of employment more than 200,000 workers, went into effect today.

The shutdown is regarded by contractors and labor leaders as the beginning of one of the greatest labor wars in recent years. The action was taken at a meeting last night of representatives of the allied building and material interests as an answer to the referendum vote of 16,000 striking carpenters, who overwhelmingly defeated the proposal to arbitrate all questions in dispute.

The carpenters have been on strike since April 30, when their agreement with the contractors association expired. The men had demanded an increase in wages from 65 cents to 75 cents an hour.

By means of the shut-down, the employers, it was said, hope to prevent the independent carpenter contractors from obtaining supplies and thus throw out of work the 10,000 carpenters who are working under individual agreements.

Business in many parts of the country will suffer as the result of the shutdown of this city's building industry, according to James Pryor, a

Zapata is Preparing to Offer Resistance With His Artillery Forces—Carranza Agent Leaves Washington to Confer With Chief—Latest On Mexican Situation.

(ASSOCIATED PRESS TELEGRAM)  
Washington, June 26.—Official advices today report a smashing defeat of General Gonzales and the Carranza army advancing on Mexico City by the Zapata forces. General Carranza has ordered all available rolling stock from Vera Cruz toward the capital, to order the retreat and in an effort to save General Gonzales and his army.

(ASSOCIATED PRESS TELEGRAM)  
Washington, June 28.—State department advices today contained nothing bearing on the reported occupation of Mexico City by Carranza troops but announced General Carranza's guarantee of protection for non-combatants in case of fighting there.

The department summarized its advices in this statement: "The department has received in advices from Vera Cruz to the effect that General Carranza has given assurances that in the event of fighting in the city of Mexico, the interests of non-combatants whether natives or foreigners will be looked after."

"The department is in receipt of no definite report concerning the operations of General Carranza forces outside of Mexico City but it would appear from the meagre reports received that General Zapata is preparing to offer some resistance with his artillery forces."

The opposing forces were reported in an artillery attack yesterday in which the Carranza advance was checked.

Consul Silliman reported to the state department today in a telegram dated at Vera Cruz at seven o'clock yesterday evening that interruption of communication with Mexico City was due not so much to actually military operations as to the fact that the Zapata forces have destroyed the line.

This is one of the first photographs of actual war conditions in Italy. It shows the Italian bergliers on their way to Austria. The picture was taken at one of the mountain towns in the north after they had crossed the northern boundary.

The bergliers are infantry sharpshooters, who are famous throughout Europe. They are picked from infantry regiments throughout the army on their records for marksmanship, and therefore become important factors in the war. They have also been trained to mountain climbing in the Alps.

Investigation Will Reflect  
Credit, Instead of Dishonor  
Upon Head of Reform School

(ASSOCIATED PRESS TELEGRAM)  
Lancaster, June 26.—After a session that had extended until after last midnight, the special committee appointed by Governor Willis to inquire into charges against Superintendent Hastings of the Ohio Boys' Industrial School here resumed its sessions early today. It is understood members of the investigating committee will file their report together with whatever recommendations they make with Governor Willis.

Captain Hastings was the principal witness today. He gave his version of the incident relating to the removal of certain timber and its conversion into firewood. He also went into details as to his reasons for discharging several employees, including Joseph of Cincinnati, who filed the charges against Hastings.

The closing part of the committee's inquiry was directed to the question of whether punishment administered by Captain Houser, the school's disciplinarian, upon Albert Bennett, 15, of East Liverpool, was too severe. Complaint was made that the punishment received caused an injury from which the boy had suffered since he was six years old to return. Dr. E. F. Clouse, head physician of the hospital, and Mrs. J. D. Garver, the head nurse, who examined the boy after he had been punished by Houser, said that the punishment did not injure him. Young Bennett, on the stand, also testified that the chastising did not cause his injury.

The committee concluded its inquiry early this afternoon. While the members did not give any authorized statement of what their findings would be, they made it plain that no case has been found against Captain Hastings, and that the investigation, instead of being detrimental to his administration, showed it up in a most favorable light.

The investigators will probably

Atlanta, June 26.—Near-beer saloons were closed, the entire night watch of police was held at stations for extra duty and the guard of militia still surrounded Governor Slaton's home in an effort of the authorities to forestall today and tonight demonstrations of protest against the governor's commutation of Leo M. Frank's death sentence. The term of Governor Slaton expired at noon and crowds were in the city for the inauguration of Nat E. Harris.

MOVE TO REACH WARSAW

Is Expected, However, Before Any Great Teuton Offensive is Probable In the Western Arena—Enormous Loss of Turks is Reported—Need of Shells is Acute.

(ASSOCIATED PRESS TELEGRAM)  
London, June 26.—With a breathless expectancy which seemed to be reflected in the pause at the present moment, on both battle fronts on the continent, the British public is awaiting the next move on the European chess board. It is conceded that this move is Germany's and that it may be made against either Warsaw, Paris or Calais.

Some German activity has been reported in the Argonne, which may indicate a drive in the direction of Paris, but the closing of the Belgian frontier may mean the transfer of veterans from the eastern front for another attempt to break through to the English channel.

Many persons believe, however, that no great offensive will be attempted along the western front until another effort has been made to reach Warsaw, against which position the Germans are said to be bringing big guns from Essen.

No great activity is to be noted along any of the minor fronts. The Italians claim to be engaged in consolidating the positions they have won along the river Isonzo, while from the Dardanelles come reports of enormous losses suffered by the Turks in defending the peninsula from the attacks of the allies.

The question of munitions is still absorbing public attention in England. The house of commons has been assured by Walter Runciman, president of the board of trade, that Great Britain has sufficient high explosives for her own use and that she need have no concern over her food supply, but that the requirements for shells are still acute.

INCREASE MADE  
ON VALUATION OF  
INTERURBAN CO'S

(ASSOCIATED PRESS TELEGRAM)  
Columbus, June 26.—The state tax commission, which has begun making taxations on utilities throughout the state, today announced that an increase had been made in the property of the Columbus, Delaware and Marion Interurban line. Last year this road was on the tax duplicate for \$1,630,440, while this year it goes on for \$1,680,860. The Cincinnati Traction company also gets a boost and goes on the tax duplicate for \$19,232,270 this year, against \$18,760,400 last year.

The Columbus, Magnetic Springs and Northern electric road is one of the few to have its valuation decreased. Last year it was valued at \$235,910, while this year it goes on for \$219,840.

A complete appraisal of the road has just been completed and the new valuation is based on the figures presented by the experts who did the work.

Mr. Harris has stated that the guard at Mr. Slaton's home will be doubled tonight and the guardmen will be kept there, until in the opinion of Adjutant General Nash, all danger has passed.

Twenty-six men were brought to the county jail here today by militiamen guarding the country home of Governor Slaton. The state guardsmen said they were arrested while trying to enter the governor's estate.

The men are being held on order of Major Hall, commander of the guard at Mr. Slaton's home. No

## RESERVISTS OF SERBIAN ARMY UNDER ARREST

FEDERAL OFFICERS BOARD TRAIN AND DETAIN THEM AFTER SOME DIFFICULTY

Will Have a Hearing on Charge of Violating the Neutrality of the United States.

(Associated Press Telegram)

Chicago, June 26.—Twenty-three reservists of the Serbian army alleged to be United States citizens, either native born or naturalized, were held by federal officers here today for appearance before a United States commissioner for examination as to a violation of the nation's neutrality.

The reservists were taken into custody by fifteen United States deputy marshals as they were leaving, with about four hundred of their countrymen, for London, Ontario, last night. They were to sail from Canada, it was reported, to join their regiments fighting with the allies.

Other members of the party, which occupied seven coaches, were permitted to leave after the train had been delayed four hours. The twenty-three men were detained only after a call brought a score of police reserves to the assistance of the federal officers. When the train was stopped and federal agents boarded it, the reservists began speaking in their native tongue, that German spies had attacked them. They scammed out of the coaches and fought off attempts of the federal officers to arrest them. Police were obliged to swing their clubs on the heads of the Serbians before order was restored.

## CARRANZA'S

(Continued from Page 1.) recently by President Wilson in his statement to the leaders of the warring factions in Mexico demanding an early restoration of peace.

It was also understood that the Carranza representatives would endeavor to bring a reconciliation by the constitutionalist leader, and the Villa-Zapata factions. General Carranza thus however has refused all peace overtures of General Villa. It is believed that Carranza's representative will tell him that he must show a conciliatory spirit towards his opponents before he can hope for the moral support of the American government.

Official attention in connection with the Mexican situation was focused for the most part today upon the capital of the southern republic. With General Gonzales the Carranza commander and the Villa-Zapata forces reported in artillery duel for possession of Mexico City with telegraphic communication with that city cut off and with famine conditions there—they are growing worse—anxiety of Washington officials increased today.

## CARRANZA REPORT IS DENIED BY VILLA.

Washington, June 26.—General Villa in a message dated yesterday at Aguas Calientes and received at the Villa agency here today, says: "The reported capture of Aguas Calientes by the Carranza forces is completely absurd. Our operations are progressing favorably."

## ARMED AMERICANS IN YAQUI VALLEY READY FOR INDIANS.

(Associated Press Telegram) Tobar Bay, Mexico, June 25.—(By radio to San Diego, June 26.)—Americans in the Yaqui Valley are well armed with Springfield rifles and an adequate supply of ammunition, and are ready to repel any future Indian attacks, according to advice received here today. Some of the Americans have arranged to hire other foreigners to assist in their defense.

The valleys of the Yaqui and Mayo rivers were reported quiet today. Rains have begun and are expected to cause a rapid rise in the Yaqui river. This will prevent movement of the Indians to the Mayo river southward, where there is an American settlement. The mouth of the Yaqui river was 40 miles wide during the December floods.

Latest advice received from Lapaz, lower California, stated that the town and vicinity had declared in favor of Carranza. It previously was declared "neutral." Guaymas has refused to receive or clear Lapaz shipping.

## AUTO RACERS

(Continued from Page 1.) Rosta 1:25.27; Porporato 1:25.52; E. Cooper 1:26.13. Rosta's average was 98.3 miles per hour.

Rosta made 160 miles in 1:36.44, a world's record. His speed was 99.23 miles per hour or approximately 10 miles an hour faster than the previous record made by De Palma at Indianapolis.

Automobile men here predicted that the race would shatter every competitive speedway record in the world.

Rosta led at 200 miles, followed by Cooper, Porporato, Grant, Rickenbacker, Van Raalte, Chevrolet and Anderson, in the order named. Rosta's average was 97.1 miles per hour for this distance.

At 260 miles the leaders were: Rosta 2:40.01. Porporato 2:41.16. Grant 2:42.04.

Attendance was said to be eighty thousand.

It was announced that Rosta had broken the world's record for 200 miles and for 320 miles at an average speed of 98 miles an hour. Exact figures were not given.

At 300 miles the first six drivers were: Rosta, Grant, E. Cooper, Porporato,

to, Rickenbacker and Anderson. Time was not announced.

A broken crankshaft caused the retirement of Limberg.

Rosta's time for the 320 miles was 3:15.00. This compares with 3:19.32 which De Palma required to make 300 miles at Indianapolis.

Standing at 340 miles: Rosta, 3:28.04; Porporato, 3:32.03; Grant, 3:32.35; Rickenbacker, 3:32.47.

Average speed, 98.5 miles per hour. Rosta leading by five miles beat the previous world's record for 400 miles by 22 1/2 minutes. His time was 4:04.49, or an average of 98.03 miles per hour. Porporato was second; Grant, third; the latter only seven miles behind Rosta.

## ITALIAN BANK IN CHICAGO IS FORCED TO QUIT

Chicago, June 26.—A crowd of Italians, men, women and children, fearing they would lose their savings, today stormed the State Bank of Italy, which announced this morning that it would pay its depositors and quit business, forced into the move by the war.

Riot calls resulted in the arrival of the police who finally placated the depositors, who were admitted to the teller's cages and paid.

The bank had a capital of \$200,000. Deposits amounted to \$257,000. Withdrawals following the entry of Italy into the war, depositors sending the money to relatives at home, was said to be one of the causes of the closing.

### OF CINCINNATI WATERWORKS DEPARTMENT IS CHARGED WITH EMBEZZLEMENT.

Suspected Official Says His Accounts Are Not Short and He Can Explain.

Cincinnati, O., June 26.—A warrant charging Roland W. Goedel, paymaster of the Cincinnati Waterworks department with embezzling \$1,591.59 was sworn out in municipal court today by John A. Miller, general superintendent of the water works. The warrant was at once placed in the hands of the detective department and search for Goedel was started. The warrant followed a conference between Service Director Fosdick and Dawson Blackmore, administrative superintendent of the water works today.

Goedel had been suspended Friday afternoon by Fosdick following a report made to him by Blackmore that Goedel had confessed to him Friday afternoon that he was short in his accounts.

Goedel when interviewed earlier in the day said: "My accounts are not short that I know of. I have not made a confession to that effect to Mr. Blackmore or any one else connected with the water works. I did not lose money at the Latonia race track. I will be at the water works office later today and the whole affair will be straightened out then."

## FRENCH REPORT RELATIVE QUIET ON WEST FRONT

(Associated Press Telegram)

Paris, June 26.—The French war office this afternoon gave out a report on the progress of hostilities which reads:

Considering the front as a whole, last night passed with relative quiet. In the region to the north of Arras there is nothing to report, with the exception of some infantry engagements accompanied by a lively cannonading between the Souchez sugar refinery and the national highway between Bethune and Arras.

"Our progress has been checked by the condition of the ground which in certain places has been rendered almost impassable by the recent storms."

"On the Champagne front and in the Argonne the fighting with mines has been going on, and to our advantage."

## SECRETARY

(Continued from Page 1.) sea has leaped forward at a single stride and broken almost every shackles of ancient convention.

"We have seen the main fleet of the greatest sea nation in the world withdrawn from the seas to some secluded harbor without having fired a shot during the first year of a mighty conflict. We have seen that a navy begun at random believed to be impossible and ships disabled by shots from guns as yet invisible. We have been told that modern sea fights would be determined in the first ten minutes, yet we have seen that it took six hours to decide one of the greatest ocean battles of the present war. We have seen ships of shallow draft used as fortresses to protect land armies on the Belgian coast."

"We read only yesterday of submarines gliding unchallenged past the impregnable fortress of Gibraltar and the guardian ships that watch the straits. We have seen fast cruisers raiding the coast and eluding their pursuers by the help of dirigibles, hovering far above and warning through the new miracle, wireless telegraphy, the ship beneath."

"With what weapons, by what strategy, shall we meet the terror of the submarine? The still unrevealed possibilities of the airship? It is to you gentlemen, that this question must be put. It is to you your secretary of the navy, looks for an answer. My earnest word, my solemn plea, today is to urge you fearlessly to discard worship of all things that are old, and adopt courageously anything that is new the moment that some development of the present convinces you that the old way is no longer the right way, or that the new way points the path to victory. It is the courage of the American people in facing new conditions from the time our forefathers dared and mastered the terrors of the wilderness and built therein a new nation with a new government that has made us great today. Holding wisely to what is good in the past, to such principles as stand the acid test of this great war, do not fear to cast aside what have proved to be mere shackles of convention and daringly to go forward."

"I hereby pledge myself to spare no effort to assist this onward march. Rest assured that what you plan will find a sympathetic and attentive ear. I want to feel that when my term of office closes my successor will find, in orderly arrangement, the perfect plans and methods human wisdom can invent, kept up to date, for the conduct of our navy in the time of war, and it is here that the studies necessary for such plans must be carried on."

## STATE TROOPS

(Continued from Page 1.) charge has been made against them by civil authorities.

It was said at the jail they would be held until the militia authorities considered danger of trouble had passed. Militiamen and the men were taken early this morning, and that seven pistols and three clubs were taken from them. Previous to the roundup there is said to have been an exchange of shots with the guardsmen, but no one was hurt.

The prisoners were locked in Governor Slaton's barn until brought to the jail.

## Governor Slaton Was Cheered and Hissed As He Left Office

(Associated Press Telegram)

Atlanta, June 26.—Nat E. Harris today was inaugurated governor of Georgia succeeding John M. Slaton, who six days before he retired commuted the death sentence of Leo M. Frank to life imprisonment. As Governor Slaton arose in the hall of the house of representatives to make a short farewell address and hand over the state seal to his successor, there was a hostile demonstration in the galleries. It was quickly suppressed.

As he handed over the seal with the remark that "during my administration this seal never has been abused."

Governor Slaton was cheered from the galleries as well as from the floor.

**Speed of Waterfowl.**  
Waterfowl have great powers of flight. The canvasback duck covers from 130 to 100 feet a second. The blue winged teal and the green winged teal, the bluebell and the redheads are only a little slower. Mallards, pintails, wood ducks, black ducks and others can easily fly faster than a mile a minute. Even such large birds as cranes, swans, pelicans and geese can fly at a speed of more than 100 feet a second. The speed of waterfowl has often been measured with great accuracy. Two men take positions on a duck pass a measured distance apart. The first man carries a stop watch and a gun, the second a gun only. As the fowl pass the first blind the timer shoots in order to frighten the birds into full speed and starts his watch. As the ducks pass the second blind the man there fires a shot, and the timer stops his watch. The usual length of the course is a quarter of a mile, although a mile "track" is sometimes used.—Youth's Companion.

### A Lasting Window Polish.

There is an art in washing windows, and if they are properly polished the operation need not be repeated for a long time. A really good polish will survive several rainstorms and will only require the dust to be removed occasionally with a dry cloth. The inside of the windows should be washed with tepid water, without soap or powder of any kind, rubbed dry with cloths and polished with cheesecloth. A solution for cleaning the outside should be made from one ounce of pulverized whiting, one ounce of grain alcohol, one of liquid ammonia and a pint of water. Spray the window with clear water to remove surface dirt, and apply the solution with a soft cloth. Let this dry on. Afterward polish with cheesecloth or tissue paper. If the glass has been badly scratched a filling may be applied. This consists of an ounce of white wax dissolved in turpentine. It should be applied before the polishing.—Washington Star.

### Questions.

There are many different kinds of questions, but, roughly speaking, they all may be included in the following three divisions; first, those which can be answered; second, those which may be answered; third, those which should not be answered. Illustrating the first division are those questions which others never ask of you and those which you never care to hear others answer; the second includes questions which are pointed, private, perplexing and political; in fact, any questions which simperons assert cannot be answered; the third division, questions which should not be answered, includes what? Well, that is a question which should not be asked.

Some people ask questions because they wish to know more; some ask them because they desire to show what they already know, and some ask them because they want to show what others do not know.—Life.

### A Matter of Temperature.

Hospitality is a good deal a matter of latitude, I suspect. The shade of a palm tree serves an African for a hut. His dwelling is all door and no walls. Everybody can come in. To make a morning call on an Eskimo acquaintance one must creep through a long tunnel. His house is all walls and no door except such a one as an apple with a worm hole has. One might very probably trace a regular gradation between these two extremes. In cities where the evenings are generally hot the people have porches at their doors, where they sit, and this is, of course, a provocative to the interchange of civilities. "A good deal which in colder climates is ascribed to mean dispositions belongs really to mean temperature.—Holmes.

### Soap Substitutes in Japan.

Soap is a comparatively recent importation into Japan. However, what the Japanese lacked in substance for loosening the dirt they made up in "elbow grease." Most often they used a powder or flour, among the most common cleansers being the bean, rice and brin. The women of old Japan used a kind of seaweed for shampooing the hair. They gathered it from the rocks and dissolved it in warm water.

### Further Information Wanted.

"Did you tell that man at the door that I was not at home?"

"Yes, ma'am."

"What did he say?"

"He asked me when you would be."

"And what did you say then?"

"I told him to wait and I'd come up and ask you."—Detroit Free Press.

### Curbing the Kickers.

"Do you think pretty girls get along better in business?"

"I find one useful at the complaint desk, anyhow," replied the merchant. "A pair of fine eyes will go a long way toward making a man think that his complaint was badly founded."—Louisville Courier-Journal.

### Modesty.

He—Why are you always reminding me that you might have married some one else? She—I don't recall that early error of judgment so much on your account as on my own. I want to preserve in myself a proper intellectual humility.—Richmond Times-Dispatch.

### A Fair Return.

Grocer—Your bill's up to \$20, Hank. Hank Jones—Well, here's a dollar. Grocer—What! Only a dollar? Hank—Only a dollar! And ain't that 5 per cent on your investment?—Puck.

The most common secret of want of success in life is a tendency to let things drift.

California is spending \$18,000,000 on State Highways.

## Dependability—versus—Ingenious Claims

MORE than 75 concerns now manufacture tires. We believe that everyone of these makes as good tires as he knows how, at the lowest cost his experience, equipment and methods make possible.

We believe that the average tire manufacturer is fair in his treatment of adjustments, and that few deliberately misrepresent their product, either verbally or in print.

We believe that no tire manufacturer can afford to make statements in print about his product, which statements cannot be borne out by the performance of his tires, in actual use.

We believe that the tire has never been made which will not "Rim-Cut" if run "flat" for any considerable distance, and that many makers, including ourselves, have always produced tires that would not otherwise "Rim-Cut."

We believe that many more tires "Break-at-the-head" than cut at the rim.

We believe that the Rubber Riveting System of attaching the tread to the carcass (by means of a loosely woven fabric, which permits the raw rubber to percolate through its meshes and then vulcanize to carcass and tread) prevents, to a large extent, tread separation.

We have long used this in "Goodrich" tires, as a commonplace part of our precision policy, but without laying any particular stress upon it.

We believe that the "Double-Cure" process, common with a great many tire manufacturers under different names, adds unnecessary expense to tire cost, which expense the Methods of the Goodrich Factory eliminate through its Precision "Single-Cure."

We believe that the cutting out of needless expenses like this (which our Precision Methods save) constitutes one of the strongest reasons why the largest Rubber Factory in the World (Goodrich) produces the greatest mileage—per dollar of cost—in its tires.

And—"The PROOF of the Tire is in the Mileage thereof."

We believe that the House which sticks to the Truth in its Advertising, is reasonably sure to stick to the Facts in its Selling.

You have never yet found anything in Goodrich Advertising which was not in the Goods it advertised.

Hence you may pin your faith to the following statement:—Goodrich Safety-Tread tires give, with most UNIFORMITY, the greatest MILEAGE, and Resiliency, at the fairest cost, per mile, to tire users. Test them and see!

# YALE CREW IS TOO MUCH FOR GAME HARVARD

ENGLISH-COACHED NEW HAVEN ROWERS LOWER RECORD IN DECISIVE VICTORY

Crimson Eight Were Simply Outclassed by the Power and Flunish of Their Opponents.

New London, June 26.—For the first time in many years the Yale crews swept the river in the annual dual regatta with Harvard, Friday, and Eli alumni and undergraduates are loud in their praise of the three crews and Coach Guy Nickalls until the din is deafening. Notwithstanding delays due to rough water and accidents the English-coached eight of the Blue, with characteristic bulldog determination, fought for victory from early forenoon until dark, defeating in turn the junior, varsity and freshman eights of the Crimson.

Regardless of the delays, one of the largest regatta crowds that has gathered at New London in a decade followed the fortunes of the crews loyally, applauding the efforts of both winners and losers.

Fully 10,000 spectators witnessed the contests from the observation cars, which followed each race along the banks of the Thames, while the river shores were thronged.

Chief interest centered in the outcome of the varsity race when the Yale oarsmen demonstrated that the eight-man victory of last year's English-coached crew was not a fluke by winning today's contest by almost six lengths. Harvard took defeat philosophically but Yale adherents made no attempt to hide their joy nor did the town folk, with whom the Eli victory was exceeding popular.

That the Blue had a crew of particular power and flunish is shown in the figures of the four-mile race, where the Yale oarsmen set their own pace, and in so doing established a new up-stream record of 20 minutes, 52 seconds, beating the time made by the Yale eight in 1907 in 18 seconds. The time of both crews in today's race by miles follows:

A southwest wind and choppy water delayed the start of the varsity race more than one hour and the lower half of the course was still choppy when the shells darted away from the railroad bridge.

The speed that Coach Nickalls' Eli eight developed, with its slow start, reaching stroke, was uncanny at times. Though Stroke Morris evinced a tendency to fight his oar at times, the Yale shell traveled at high speed throughout the entire four miles and there was not the slightest evidence of the usual check in the progress of the craft between strokes. Every stroke appeared identical with its fellows, regardless of whether the beat was at 30 or 40. Much of this success was due to the powerful leg drive and the final snap given the blades just before they were taken from the water.

## Harvard's Game Crew Defeated By English Coached Yale Rowers.

THE CREW REPRESENTING HARVARD IN THE 1915 RACE WAS A SPLENDID ONE, ALTHOUGH BEATEN IN LENGTHS BY YALE.

Minor faults were apparent in one or two spots in the Crimson craft, but taken as a whole, the crew was a credit to Coach Wray despite the fact that it did not develop anything like the power and run of the Yale boat.

Stroke Land lifted his oar unusually high in finishing at times, while Parsons, at No. 6, and Morgan, at No. 2, were not always in unison with the other members of the eight. These lapses appeared only occasionally, however, and the reason for defeat appeared more in the concerted lack

of power rather than in any individual faults or rowing omissions. Every oarsman rowed his stroke through in finished style, but it lacked the final snappy drive, the oars washing through weakly just before being taken from the water.

Harvard fought gamely throughout the long four-mile race, rowing according to their lights without sign of faltering or break.

When the Yale shell shot across the finish line, Coxswain McLane was standing up cheering on his rowers like a Roman chariot driver. His words of praise told on the oarsmen, several of whom were crying and weeping forward while Captain Stuart bent to grasp the gunwale

to keep from falling backward. Other members of the crew splashed them with water and soon they joined in cheering the Crimson eight, floating close by.

Harvard was slower to recover, for the sting of defeat was added to physical exhaustion. Stroke Land, victorious participant in nine races for Harvard, including those on the English Holve course, collapsed as his oar trained past the finish posts. At his back, Cabot, No. 7, followed suit and in the waist of the shell Harwood, No. 1, slumped down while the hands scooped water over the sides on the gasping oarsmen, who slowly sat up under the refreshing showers.

## TY COBB SLUMPS BUT STILL LEADS AMERICAN LEAGUE

Chicago, June 26.—Ty Cobb has allowed his batting average to slip below .400 for the first time since he gained the leadership of the American league this season, according to averages compiled here today including the records of last Wednesday. Cobb maintains his place in front in his circuit but the batting slump of Jake Daubert suffered in the recent Chicago series lost to the Brooklyn star first place in the National to Fred Luderus of Philadelphia and Lee Magee, one more leads the Federal League, having gone ahead of Vincent Campbell American League leaders, counting only those who have taken part in at least half of the games their teams have played are:

Cobb, Detroit, .397; Fournier, Chicago, .390; Jackson, Cleveland, .344; Crawford, Detroit, .321; Collins, Chicago, .323; Lajoie, Philadelphia, .312; Veach, Detroit, .311; Phipp, New York, .306; Strunk, Philadelphia, .303; Maisel, New York, .302.

In team batting Chicago with .267 and Detroit with .256 lead.

Crawford has wrestled slugging honors from Cobb with total bases numbering 15 to Ty's 112, but Cobb still leads in stolen bases with 44 and in runs scored with 65. Oldring, Philadelphia, and Caldwell, New York, lead in home runs with four each.

The 700 pitchers of the American League who have taken part in 10 or more games are:

Faber, Chicago, won 12 and lost 2; Scott, Chicago, 9 and 3; Benz, Chicago, 6 and 2; Foster, Boston, 8 and 3; Fisher, New York, 5 and 2.

In the National league the leading batters are:

Luderus, Philadelphia, .347; Daubert, Brooklyn, .340; J. Smith, Boston, .325; Merkle, New York, .325; Sailer, Chicago, .323; Good, Chicago, .322; Connolly, Boston, .320; Doyle, New York, .318; Wade Kilmer, Cincinnati, .315; Robertson, New York, .314.

St. Louis has displaced New York in team batting with an average of .279 to the Giants' .257. Sailer of Chicago, leads in total bases with 123, and in runs scored with 39. Carey of Pittsburgh, leads the base stealers with 15 and Cravath, of Philadelphia, in home runs with 9.

Leading pitchers are: Meadows, St. Louis, won 7 and lost 1; Pierce, Chicago, 6 and 1; Marnaux, Pittsburgh, 10 and 2; Alexander, Philadelphia, 12 and 3; Mayer, Philadelphia, 12 and 3; Regan, Boston, 6 and 2.

Leading Federal batters are: Magee, Brooklyn, .352; Campbell, Newark, .351; Easterly, Kansas City, .344; Kauff, Brooklyn, .337; Flack, Chicago, .333; Duncan, Baltimore, .328; Deal, St. Louis, .320; Roush, Newark, .318; Tobin, St. Louis, .317; Cooper, Brooklyn, .315.

Brooklyn leads in club batting with .255. Newark is second, .261. Lee Magee leads all competitors in total bases with 98, in stolen bases, with 20 and in runs scored with 41. Zwilling, of Chicago, Walsh of Baltimore, Konetchy, of Pittsburgh, and Chase of Buffalo are ahead in home runs with 5 each.

The Federal league race is so close that only three pitchers have acquired averages in more than ten games. They are: Cullop, Kansas City, won 12 and lost 3; Plank, St. Louis, 8 and 3; Allen, Pittsburgh, 10 and 4.

## NEWARK CLUB TO RETURN HOME FOR GAME WITH AKRON

Newark's Buckeye League club closes a series in Lima today and then moves to Akron where a double-header is scheduled for Sunday afternoon with the Lawson-Newham crowd. After the double bill, both teams leave for Newark to play a series of three games scheduled to start Monday at Wehrle Park.

On this trip Newark has lost one game while the other was postponed because of rain. The third game of the series is to be played this afternoon if the weather in Lima is fit.

## TENNIS TOURNAMENT ON CLAY COURTS STARTING TODAY

The organization as composed at present represents seven speedways with a total seating capacity of close to 400,000 and 15 miles of track. More than one-fourth of a million dollars is to be offered in purses during the year and the list of events arranged upon a non-conflicting basis so far as possible. Indianapolis and Minneapolis have the largest courses both being two and a half miles to the lap. The other cities in the Association have two-mile tracks. Three tracks are wood, three of asphalt and one brick. More than ten million dollars worth of property and buildings are represented in the organization.

## C. A. C. IN TWO GAMES SUNDAY WITH STONE A. C.

The Newark team of the Capital City league will play a double header at Wehrle Park, Sunday afternoon. First game will be called promptly at 2 o'clock. Their opponents will be the Stenier Athletic club of Columbus which is classed as a first class club. The home boys are expecting a good crowd with fair weather, as they have been playing good ball.

## Notice South End Cubs

The following South End Cubs, Harrison, Baker, Devine, Morrison, Hickman, Toothman, Hummel, Donaldson, Beck, Redman, Taylor are requested to report at the Heisey grounds at 9 o'clock Sunday morning. South End Cubs vs. Independents.

## NERVOUS TROUBLE CAUSE OF SUICIDE

(Associated Press Telegram)  
Milwaukee, Wis., June 26.—(Rev. Frank Westcott, 56, an author of "Sigmund Freud's New Psychology," was found dead today hanging from a steam pipe at a local hospital where he had been under treatment for a nervous trouble. It was believed he committed suicide some time during the night. He was a brother of Edward Noyes Westcott, also an author.

Rev. Mr. Westcott had for some time been assistant to Bishop William Walter Weber of Milwaukee Episcopal Diocese.

The Philippine government recently granted its first concession to foreign capital, an English company getting a 20-year right to develop hardwood forests.

## OLD BASEBALL INSURED FOR 1000 DOLLARS

THE SPHERE COVERED WITH HORSEHIDE SAID TO BE 53 YEARS OF AGE

Not the Oldest in Existence However—Auto, and Harness Races—Football—Sports Letter.

(Associated Press Correspondence)

New York, June 26.—Veteran baseball fans, whose memories carry them back to the early days of the National Game, are discussing the recent report from Pittsburgh that the oldest baseball in existence had been insured for \$1,000 against loss by fire or burglary. This sphere, which is covered by one piece of horsehide sewed in the center, is said to be fifty-three years old, having made its initial appearance in a game played between the Eclipse club of Kingston, N. Y., and the Hudson team of Newburgh, N. Y., on June 29, 1862, which was won by Kingston players 49 to 18.

While this ball is undoubtedly one of the old time spheres it is not the oldest by some years if the records regarding this department of baseball can be relied upon. A baseball which antedates the Pittsburgh one by five years is, or was, until recently, in the possession of P. M. Whitte of Emporia, Kansas. This sphere was used in what is claimed to be the first championship game ever played in this country. It figured in the contest between the Tri-Mountain club of Boston and the Portland Me., team in a game played September 9, 1857.

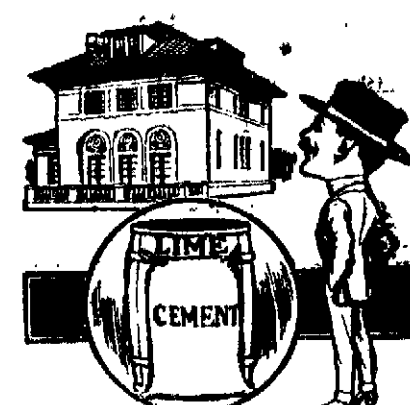

Like the Pittsburgh ball it has a one-piece cover and measures ten inches in circumference. The contest in which this ball, now preserved by a coating of gold leaf and suitably inscribed, was used, was played on Boston Common and was won by Portland, 47 to 42. The match was memorable in other respects since it was the first played under the alternating rule and the first in which the pitcher was permitted to pitch instead of being forced to use the toss or underhand throw.

The Speedway Association of America recently formed to control auto racing on the speedways of seven cities throughout the country marks a new era in automobile racing. The Association, which is broadly defined as a gentlemen's agreement among the promoters to avoid conflict of dates, excess bidding for entries and other features where co-operation is more effective than strife, includes speedways at Indianapolis, Chicago, New York, Omaha, Sioux City, Minneapolis and Tacoma with Detroit as a possible member of the near future.

The organization as composed at present represents seven speedways with a total seating capacity of close to 400,000 and 15 miles of track. More than one-fourth of a million dollars is to be offered in purses during the year and the list of events arranged upon a non-conflicting basis so far as possible. Indianapolis and Minneapolis have the largest courses both being two and a half miles to the lap. The other cities in the Association have two-mile tracks. Three tracks are wood, three of asphalt and one brick. More than ten million dollars worth of property and buildings are represented in the organization.

The all-eastern tennis team consisting of Williams, Church, Washburn and Mathey selected to represent the east in matches against the Pacific coast stars, makes its first official appearance at Pittsburgh today in the clay court championships. The form shown by this quartet will be watched closely, since it is expected to give a line on the probable outcome if the West vs. East matches to be played at San Francisco about the middle of July.

The personnel of the western team has not been made public as yet but it is known that the Pacific coast has a number of racket stars to select from, including McLoughlin.

ESTABLISHED IN 1870.

Entered at Second Class Matter March 10, 1892, at the Postoffice at Newark, Ohio, under Act of March 3, 1879.

## Waiting On Table.

A great number of young people during recent years have spent the summer vacation months waiting on table at summer resorts. The hotel dining rooms are full of teachers and those who are earning money for an education.

It is an employment far more suitable than selling books or peddling notions from door to door. The book agent makes an appeal that is often partly charity. He seeks to get money by interesting people in his need for an education, not wholly on the merits of the proposition he has for sale.

The table waiter, however, supplies a real need, and she appeals in no way to charity. She renders full service for every dollar she gets, and thus becomes one of the world's producers. Incidentally it is a pleasure to many tourists to come in contact with many of these quiet and refined young people, who give dignity to any work that they undertake.

## A Parallel.

Here's a parallel between two governors. In Pennsylvania the general assembly repealed the so-called full train crew law which the railway companies considered a grievous burden. Governor Martin Brumbaugh vetoed the repeal bill because, as he stated in his message, the railway lobby exercised undue influence upon the legislators. Here in Ohio the general assembly repealed the Green law requiring coal miners to be paid for all the product of the mine mouth. The mine owners, like the Pennsylvania railway interests, considered the statute as unfair and burdensome. Their lobby was active, so much so that the governor was compelled to use his influence to defeat the bill when it was first brought to a vote. But the lobby was undismayed and again returned to the battle line, finally winning a victory. Did Governor Willis veto the measure? He did not. On the contrary he signed it, but said that if conditions were not bettered by the change, he

well-known banker yesterday. The increase of more than 22 per cent. in local bank clearings shown last week over those of a corresponding period last year indicates it, in part, although not absolutely, the clearings representing only a part of the bank's transactions, perhaps 45 per cent. A gain of about \$6,000,000 for the first five months this year against those of the corresponding months of last year show the statement to be true. Except January this year, each month has shown a gain compared with the corresponding month of 1914.

The first five months of this year show a total of \$137,672,749, compared with \$114,664,941 for the same period in 1914.

Three days last week the bank clearings amounted to more than \$1,000,000 each day, while on only one day of the corresponding week in 1914 did the clearings reach \$1,000,000 mark. Bank men said yesterday that usually any phenomenal increase in the bank clearings indicated large transactions of some nature, but none of the local financiers knew of any large deals, either in the purchase of stocks or real estate, that would account for the remarkable increase in the volume of bank clearings, an increase which has been in evidence some time.

## No Stringency.

It is noticeable in the relation of this nation with world business and world capital, that in spite of our new role as a creditor and world's banker there are no fears expressed of a money stringency, especially in view of the fact that great sums of money must soon be withdrawn from Eastern banks to finance the coming great harvest.—Seattle Post-Intelligencer.

## To South America.

Exports to South America in March and April were about \$4,000,000 greater than a year ago. This reflects the recovery of South America from business prostration that preceded this war, and the improvement of our export business since the first trade of the war upon the world's straits passed off and conditions began gradually to resume the normal course. A gain of \$2,000,000, a month, with a tendency to expand, will soon restore our South American trade to the level it reached two or three years ago.—Philadelphia Record.

## New Western Ideas in Selling.

Some of the largest grocery stores in Southern California have adopted the system of quoting regular prices on their goods, with a reduction of 5 per cent. for cash and a further reduction of 5 per cent. if there is no delivery. This separation of the price of merchandise from the cost of service has been widely discussed in the trade throughout the country, but in only a few cases have the dealers begun to make the distinction. The California dealers advertise the regular prices, with a separate column for the price after the reductions have been made. The difference is enough to tempt many buyers to pay cash and carry bundles home.—Nebraska State Journal.

## Hints for Housekeepers.

In case you have guests and they engage in a heated political controversy, start up the phonograph. Burning a large onion on a red-hot shovel will do away with the odor of tobacco in your drawing room. Don't throw your coffee grounds away. Dry them and keep them for the use of borrowing neighbors. Letting the children run barefoot in summer will save money in shoes, but it makes the soap bill larger.—Chicago Herald.

## Transparent Airdships.

Of late there have been made attempts to construct aeroplanes of a transparent material, at least for all purposes where a canvas covering is used at present, such as the wings and the fuselage. One of the latest ideas of the kind is said to be an aeroplane which uses an inflammable celluloid for the wings and other parts and when flying at a few hundred feet in the air the apparatus is quite invisible, according to reports. A new muffling box on the motor serves to deaden the sound. One advantage of the transparency is that observations can be made in all directions.—Scientific American.

## Dr. Mayo's Sufficient Reply.

Gift by the brothers Mayo, Rochester, Minn., world-famous surgeons, of \$2,000,000 for an institute of medicine in the University of Minnesota, recalls to many Boston physicians an incident during a meeting of the American Medical Association in Atlantic City years ago.

In the surgical section a discussion upon some technical point in abdominal surgery was in progress. One eminent surgeon contended that such and such was the right procedure and cited an experience covering 116 operations. Another took issue, citing 137 operations. The debate ran on, various learned colleagues splitting technical hairs on the strength of operations never exceeding 150 in number.

Finally, a smooth-faced young man arose modestly in the rear and diffidently asserted a doctrine different from all the other doctrines that had been set forth.

The deans of the profession smiled at each other. One arose and asked, sarcastically: "Will our youthful friend be kind enough to state upon what basis of experience he ventures to take issue so directly with the previous speakers?"

The young man blushed, but, summoning courage, replied: "With pleasure, sir. I base my conclusions upon 1007 operations of this character, 98 per cent. of which have been completely successful." It was William J. Mayo's introduction to medical fame—and it ended the discussion.—Boston Record.

## A Little Fun

**Was Conservative.**  
 His Host—By the way, what do you think of the Mexican imbroglio?  
 Mr. Malaprop—To tell the truth, I like old-fashioned American fruits the best.—Judge.

**Real Love**  
 "Of course, Jack, I'm fond of you. Why, haven't I danced six times with you?"  
 "I don't see any proof in that."  
 "You would if you only realized how you dance."—Chicago News.

**She Got Next, Probably.**  
 The other night at dinner a little girl surprised her mother by saying: "I'm not stuck on this bread."  
 "Margie," said her mother reprovingly, "you want to eat that slang out."  
 "That's a peach of a way of correcting the child," remarked the father.

**How About a Chicken?**  
 "Fine feathers don't make fine birds," quoted the Wise Guy. "Well, they can make a goose of a woman, or a Jay of a man," added the Simple Mug.—Philadelphia Record.

**Something of a Talker.**  
 "That speaker has a great command of language." "Yes," replied Miss Cayenne. "But the fact that he has it under command is no excuse for his never giving it a rest."  
 Brooklyne Eagle.

**What Should She Do?**  
 Mrs. Newed—"I am in an awful fix, mamma." Mrs. Eaglebeak—"I went through George's pockets last night to hunt for change, as you advised me to, and I found some letters which I gave him to post last week, and now I dare not send out the letters for fear he'll send about my going through his pockets."—Boston Journal.

 The former big league baseball manager, who had been canned because the team finished last as usual, was taking a civil service examination in order to secure a political job. He was amazed at the list of fool questions on the examination paper. He didn't know the distance from the earth to the moon, so he passed that one up. And he could not describe a syzygy, so he called that test a loser. But the third question interested him. It said: "Name the largest bone in the human frame."

 The old fashioned girl who was always afraid that she might show through now has a daughter who believes that a coat of talcum powder is opaque.

If it wasn't for the weather, half the people in the world wouldn't have a blame thing to talk about.

Another mystery is how a thin girl can eat six square meals per day and grow thinner, and how a fat girl can eat one potato and gain four pounds.

A woman can imagine that she is saving money because she has everything charged and doesn't ask her husband for some coin every morning.

If it ever came to a show down, most of us wouldn't have nerve enough to preach what we practice.

When a woman tells her husband that she has something she wants to talk to him about she usually means that she wants to talk to him about something she hasn't got.

The reason a bachelor is so particular about wearing socks that do not wrinkle around his ankles is because after he is married his big worry will be to get a pair of socks that have no holes in them.

When the germ of suspicion crawls in at the door the microscope of love flies out of the window.

There is a difference between a "gent" and a "gentleman." A "gent" is a man who gets his hair cut on Saturday night.

Every man knows that he could make himself famous if he wasn't so blamed busy working for a living.

If you are going to get married, why not get married on a Friday or on the 13th of the month? Then you will have something to blame it on.

Once in awhile you will run across a little, dried up 105 pound husband who wants a whole lot of credit because he doesn't act like a brute and beat up his husky 245 pound wife.

## THE CULTURED CHILD.

How sharper than a serpent's tooth it is to be the dad of an obtrusive, cultured youth, an educated lad. You labored with the farming tool, and spent a vast amount, that Clarence Cloud might go to school, and drink at learning's fount. And now that you are old and bent, no comfort do you know, for when you mutter "I have went," proud Clarence shrieks with woe. "Come off your perch, oh, Father John," says Clarence, grim as fate; "the proper is 'I have gone'—why don't you get it straight?" And when you murmur, "I have saw," the crime's too rank for jeers; you hit poor Clarence on the raw, he sheds unmanly tears. At last your tongue has ceased to clack; you now refuse to talk, through deadly fear that you will back poor Grammar off the walk. Sometimes you argue with the mules, since children are a frost, or ask the horses if the schools are worth all that they cost. But in the house you close your trap, for if you say a word, young Clarence Claude, that cultured chap, will be profoundly stirred.

## ELOPEMENT

OF A PROMINENT NEWARK MERCHANT AND A YOUNG STENOGRAPHER IS SUSPECTED.

Mrs. Edward Gilbert Says She Has Not Seen Her Daughter Since Thursday.

Late Saturday afternoon, Mr. E. A. Gilbert received a telegram announcing the marriage of Miss Marie Gilbert and Mr. John Mohlenpach which was solemnized at Philadelphia.

Rumor has been prevalent for the past two days of the elopement of Mr. John Mohlenpach, a prominent merchant of the city, and Miss Marie Gilbert, only daughter of Mr. and Mrs. Edward A. Gilbert of Central avenue.

The young people, according to a statement of Mrs. Edward Gilbert, left the Gilbert home Thursday evening.

Mr. Mohlenpach and Miss Gilbert had returned from taking supper at the Sherwood hotel. The Gilbert family had kept their supper waiting beyond the usual time, and when Miss Marie returned, Mrs. Gilbert says her husband took his daughter to task for not notifying her mother that she would not be home for the regular evening meal.

Mrs. Gilbert further stated that Mr. Mohlenpach became vexed at the reproach given the young woman, and with Miss Gilbert went out on the front porch. This was the last seen of them by any of the Gilbert family, said the mother.

Mr. Mohlenpach, according to clerks in his store, has not been seen about there since closing up time Wednesday night.

Mr. Mohlenpach and Miss Gilbert have been friends for the past several years, and while their marriage was predicted, it was not thought to take place this month.

Mr. Mohlenpach was recently a candidate for the office of postmaster, and is engaged in the queensware business in South Third street. Miss Gilbert has been employed as a stenographer at the Newark Reflector works.

## Society

Miss Elizabeth Devlin delightfully entertained the members of the Kensington club on Friday evening at her home in North Morris street. The hours were informally spent and a two-course luncheon was served, the table being centered with a bowl of pansies.

On Friday afternoon Mr. and Mrs. D. V. Bay very informally, but very pleasantly entertained a small party of friends at their new Bay Cove, west of the city. Tea was served on the veranda overlooking the lovely valley below. Several musical numbers given by Mrs. Theodore S. Johnson and Miss Catherine Critchfield, added greatly to the enjoyment of the occasion. Mr. and Mrs. Bay's guests were Dr. and Mrs. C. J. Rose, Prof. and Mrs. Theodore Johnson and Miss Anna Gombos of Granville. Miss Katherine Critchfield of Mt. Vernon and Mr. and Mrs. U. O. Stevens of Newark.

The following young people picnicked at the "Dug Way" on Granville road last Wednesday afternoon and the party is enjoying a hay ride today: Misses Josephine Hall, Esther Hartshorn, Letha Wince, Orlena Hall, Mabel Johnson, Georgia Harris, Thelma Clinger, Carmelle Cluse, Myrtle Ross, Arvita Southern, Marie Perry, Ruth Wilkin, and Messrs. Marshall Ditter, John Fuller, Frank Tawell, Charles Hess, Harold Hultshier, George Arnsburg, Harry Wolfson, Fred Preston, and William Potter. The party was chaperoned by Rev. R. F. Bonden, Mr. Chalmers Parker, Miss Mary Larason, and Miss Clara McDonald.

Mrs. Louis Vogel of German street has received the following announcement of the marriage of Miss Jeanette Stortz, a former Newark girl, who resided in Hudson avenue, but who has recently been located in California:

Mr. John C. Stortz announces the marriage of his daughter Jeanette Amelia

to Mr. Walter G. Pfaffenberger on Saturday, the eighth of May one thousand, nine hundred and fifteen.

## Two Golden Wedding Anniversaries

On Friday, June 25, Mr. and Mrs. James Willoughby, of Outville, celebrated their 50th wedding anniversary.

Mr. and Mrs. James Willoughby very delightfully celebrated their 50th wedding anniversary at their home in Outville, O., on Friday, June 25. A sumptuous dinner was served at the noon hour on the lawn. Those present were as follows:

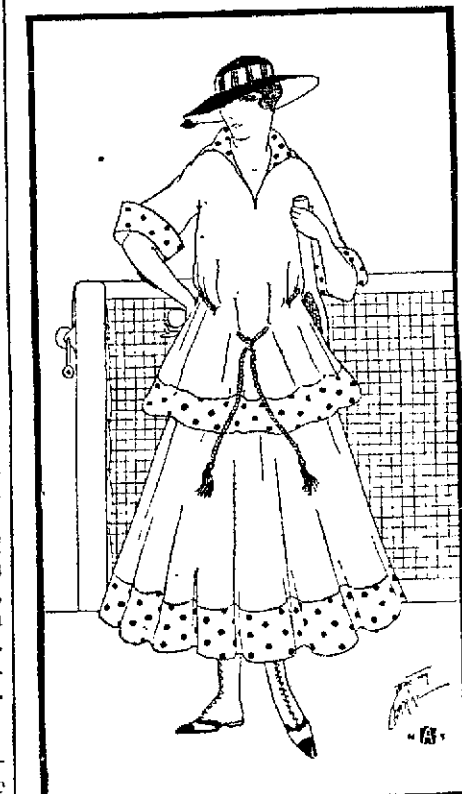

Mr. and Mrs. James Willoughby, Mr. and Mrs. Leonard Willoughby, Mr. and Mrs. Chas. D. Willoughby and daughter, Louise, Mr. and Mrs. Lott Morrow, Mr. and Mrs. Zina Wilcox, Mrs. Hove Roby and son, Kenneth, Mrs. Albert Wharton and daughter, Marjorie, Mrs. Tom Avery, Mrs. Wygant of Outville, Mr. and Mrs. Lewis Artz, Mr. and Mrs. Earl Barber and daughters, Lois and Lucile, of Johnstown; Mr. and

Mrs. Reason Roby was the only one present that witnessed the ceremony 50 years ago.

Many gifts and messages of congratulation were received by Mr. and Mrs. Willoughby.

hours were informally spent. Miss McNeerney was given a towel shower. The guests were Misses Lottie Linden, Mary Fuller, Sue Fuller, Esther Johnson, Mary Prior, Agnes Murphy, Louise Reichert, Genevieve Kennedy

## "Over the Wire"

You know how Jack has always poked fun at the clothes we wear for tennis? . . . well, I've gotten a costume that even he admits is almost as good as masculine flannels. I've never worn anything that interfered less with free movement and at the same time I think it's mighty good looking. . . . It's a straight over blouse of crepe-de-chine, very loose and just caught in at the waist by a tasseled red cord which runs through eyelets. . . . the skirt is also of crepe-de-chine, very short and very full. . . . the hem of the skirt and blouse and the collar and cuffs are embroidered with red Polka dots. . . . I've never felt so comfortable at tennis before. . . . it's really remarkable how much better one can play in a sensible costume. . . . all this is preliminary. . . . I just know I can beat you now. . . . can you motor over this afternoon? . . . two out of three sets for five pounds of Page and Shaw. . . . good. . . . about three, then, good-bye.

## THE SICK

Walter Wallace, who was operated on at the City Hospital, Monday by Drs. Davis and Harbottle, has been removed to his home in McKinley avenue. His condition is satisfactory. The five-year-old son of Mr. and Mrs. A. W. Mullenix, of North Fourth street, was seriously ill, suffering with indigestion on Saturday morning. Dr. H. P. Martin was called to attend him. The condition of Mrs. A. B. Crane, of 299 West Locust street, who fell from a cherry tree and fractured her right arm, is improving rapidly. The condition of Leslie Fishbaugh, of Elmwood avenue, who suffered a compound fracture of the right arm, several days ago, is improving rapidly.

The young son of Mr. and Mrs. W. S. Danford, 112 South Webb street, was removed in the Baxter ambulance Saturday from the City Hospital to his home. Applewood is the favorite material for ordinary saw handles, and some goes into so-called briar pipes.

## MISS LEONA EAGAN SELLS MILLINERY STORE IN ARCADE

On Saturday morning Miss Leona Eagan, who for several years has conducted the Eagan Bonnet Shop in the Arcade Annex, sold the store to Mrs. Arla McConnochie of North Eleventh street.

The shop has been one of the leading millinery houses of the city, and has been one of the most popular under the management of Miss Eagan, who will go to the home of her parents, Mr. and Mrs. W. T. Eagan in Garrett, Ind.

Associated with Mrs. McConnochie in the store will be her sister, Miss Irma Alspach, who has been employed as a milliner in Columbus for the past year. The transfer was decided upon Saturday and the new owners will take possession on Monday.

**CONDITION IMPROVED.**  
The condition of Mrs. A. R. Pitzer, who was reported as being seriously ill of neuralgia, Saturday morning is now improved.

**SENT BARREL OF FISH.**  
E. J. Maurath, who is spending a couple of weeks at Brevoort in Northern Michigan, remembered a number of his friends by expressing home a barrel of fish which he caught in the lake. Among them was a six-pound baby muscalone which he asked to be delivered to Charles Dean, the well known restaurant man of South Park Place. Mr. Dean expects to have the fish baked for his Sunday dinner and it is needless to add that it will surely be enjoyed.

## CONVICTS' DARING ESCAPE FROM A FEDERAL PRISON

Leavenworth, Kans., June 26.—Homer McCord and Frank Williams, convicts in the state prison at Lansing, escaped from the prison coal mine early today by a perilous 800 foot climb up the perpendicular air-shaft. The men cut the electric light wires in the mine and escaped in the darkness. McCord was serving a five years sentence on white slave charges, which grew out of his sensational flight from Iola, Kans., two years ago, with Mrs. Harvey Dean, a 16-year-old bride. The young woman left her husband, Harvey Dean, sitting on a park bench. The Deans were on their wedding journey. Williams was serving a sentence for robbery.

**Admitted to Probate.**  
The will of Rosa P. Wright, late of Utica, O., has been admitted to probate.

**A Caustic Lawyer.**  
At Bedmin assizes once a barrister while pleading was interrupted by the judge:

"Mr. Carter, you are wasting the time of the court."

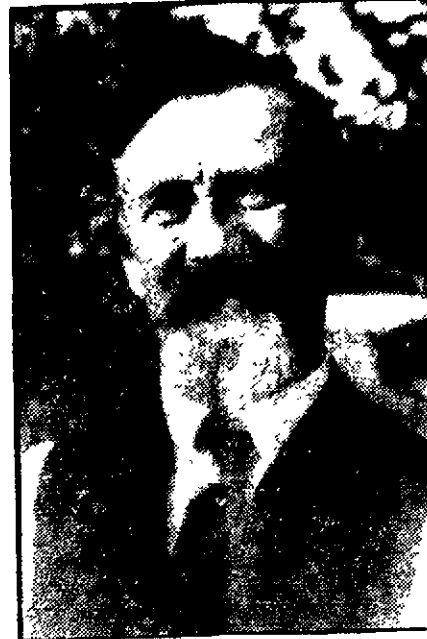

"Time of the court?" retorted the truculent veteran, glaring fiercely at the bench. "Your lordship means—your lordship's dinner!"

The judge threw up his hands in despair, and Carter continued his harangue in peace.

The same redoubtable advocate was on another occasion defending a man charged with obtaining money under false pretenses.

"False pretenses!" said he, with fine scorn. "Why, we all make them every day, barristers and solicitors and judges—the whole lot of us! Talk about the purity of the judicial machine! Here he pointed derisively to the learned judge, who sat cowering on the bench. "Why, it's only rabbit skin!"

Shouts of laughter greeted this irreverent statement, which investigation would probably show to be literally true.—London Tit-Bits.

Mr. and Mrs. George Mauger of Kikersville, who celebrated their fiftieth wedding anniversary on Sunday.

Mr. and Mrs. George Mauger celebrated their golden wedding, Sunday, June 20th at their home in Kikersville. They were the recipients of many beautiful presents. ## In Milady's Boudoir

BY GWEN SEARS.

Even the healthiest head sheds hair all the time, but from such heads only hairs that fall are the old worn-out ones which have done their work and outlived their usefulness and drop in order that new and vigorous hair may sprout from the follicles they leave.

There never has been a time in the history of the human race when the possession of luxurious tresses was not an enviable condition. Not every woman can have beautiful, long, wavy hair, but if what she has is not glossy and healthy and well cared for, it is her own fault.

To begin with the head should be shampooed just as often as it needs cleaning. The healthy head is the clean head, and just as much dirt and dust and germs settle on our heads as on our faces. There is nothing better for a shampoo than

an egg and an ounce of water beaten together and rubbed into the scalp with the pads of the fingers. There is iron and sulphur in the yolk of the egg which feeds the hair roots.

After rubbing in the egg wash it all out with warm water, till there is not a particle left. Then give it a final rinse in cold water. Dry with warm towels, sunlight, massage and air. If there is a dry condition of the scalp, dip the tips of the fingers in olive oil and parting the hair, rub it well into the scalp.

The hair is so exquisite and so valuable a part of feminine beauty it should be treated with kindly consideration. As a matter of fact, it is often most woefully neglected and abused, covered as it is with hair from other heads and unventilated hats and being burned and scuffed and twisted and raked with harsh brushes in heavy hands and genuine hair splitting combs.

## Every Day Etiquette

"How soon after the ceremony should I send out announcements or should I wait until I come home from my wedding trip?" asked Joe.

"Announcements should be sent out on the day of the wedding so they will be received the following day or at any rate within a day or so," advised her aunt.

## Your Boys and Girls

The average weight of a healthy baby at birth is about 8.5 pounds and about 18.5 at the end of the first year. The growth is most rapid during the first five years of life, the rate being about the same in both sexes, though girls are usually a bit shorter and lighter than boys. From five to ten years boys grow more

rapidly than girls, but from ten to fifteen years girls grow more rapidly than boys. After fifteen boys increase more rapidly and complete their growth at about twenty-three. After fifteen girls grow more slowly and complete their growing at twenty. During childhood increase in weight is more marked in winter and less in summer.

## DELEGATES RETURN FROM ENCAMPMENT

Mr. and Mrs. Thron, Mr. and Mrs. J. W. Rugg, Mr. Holler, Mrs. Eage, Mrs. May, Mrs. Dewey, Mrs. O. Connell, returned from the Mansfield encampment last night. Mrs. McDermott was a delegate of the W. R. C. of Newark. Everybody had a good time. All of the W. R. C. are requested to be at the next meeting to hear the report.

## ITCHING, BLISTERED SKIN-ERUPTION ALL HIS LIFE, NOW CURED

Nov. 19, 1914.—"All my life, until about a year ago, I was troubled with blisters and sores over my entire body. The itching and burning was terrible, and I could hardly sleep. I used many treatments that were unsuccessful and did not give me any relief. I started using Resinol Ointment and Resinol Soap, and they helped me wonderfully. I WAS RELIEVED AT ONCE, and after about two dozen applications I can say that I was free and cured of that awful disease. My skin now is as clear as anybody's."—(Signed) Geo. Whitehead, Jr., R. F. D. No. 54, Caledonia, N. Y. Resinol Ointment and Resinol Soap are sold by all druggists.

### IS YOUR TOILET SOAP SAFE?

Many toilet soaps contain harsh, injurious alkali. Resinol Soap contains absolutely no free alkali, and it is this added the Resinol medication. This gives it soothing, healing properties which clear the complexion, comfort tender skins and keep the hair healthy.

And the beautiful friendships made stronger, and our inner lives brought into closer fellowship with our Creator. Then living for a time out in His own out of doors, what more delightful and restful vacation could you wish.

We are very happy to welcome Miss Bergquist, who came last week to take up the Industrial and Physical work in the Y. W. C. A. Miss Bergquist comes directly from Queens, where she has just finished the course in physical training, bringing to this assembly not only the result of her training there but a lot of experience as a business woman. Miss Bergquist will go with the Industrial club girls to Summerland Beach for the club council July 2 to 10. Come in and meet her, girls.

This has been a gala week for Industrial clubs. The Four L's gave a lawn party on Tuesday night, the Starlight on Thursday, and Jolly Workers on Friday—each club realizing enough to send one or more delegates to Summerland Beach next week.

Much enthusiasm has been aroused over the council and everyone wants to go.

Miss Ella Kennedy of Xenia, Ohio, state secretary for Girls Congress, visited Miss Childs at the association Wednesday. Miss Kennedy was the first Green County Y. W. C. A. girl to win a Helen Gould Bible, and is justly proud of it.

## SCREAMS FOR HELP BROUGHT AID BUT BOY HAD DROWNED

(Associated Press Telegram)  
Wauson, O., June 26.—While approaching the Wabash crossing near West Unity last evening on his return trip from Hamilton Lake, Attorney Donald Van Buron of Cleveland heard screams for help. Van Buron and Attorney Walter Brauer also of Cleveland, who was with the former, left the machine and walked to the creek nearby. Boys who had been swimming informed the lawyers that one of their number had drowned. The body of Eddie Shadle, 14, of West Unity was recovered twenty minutes later by the attorneys. It had evidently been in the water for nearly an hour.

The adult men's Sunday school classes of M. E. and Church of Christ are completing arrangements for a big Fourth of July celebration to be held on Monday July 5, and request all liberty loving citizens of Hebron and vicinity, who desire to participate this year in a genuine old-fashioned Fourth of July, such as will make the village a real pride of the village to meet at the hall at 8 a. m. and enjoy a full day of sports, contests, races, ball game and fantastic parade, for which prizes will be given.

Miss Lucile Cully, who was chosen as instructor of music in our public schools, left here Monday for Athens to take a course in music.

Our Hebron baseball team wore their new uniforms last Saturday, and played with the Kerkersville Giants on the home ground here, winning with a score of 16 to 1.

Misses Ollie Weber, Philberta and Carrie Hutzler are attending the summer school at Athens.

The musical notes of the Dugler that headed the Newark Merchants' Auto party to our village last week aroused up our sleepy ones a little, and brought much cheer, laughter and sunshine to those they attended. The merry crowd was a "smiling one" and as they distributed their advertising matter to the various homes, they were warmly welcomed by our citizens, who very much regretted their stop was so short and hope they will come again.

Mr. and Mrs. Harry Wright and family of Newark are the guests of B. E. Lemly and family, this week.

Mrs. Myrtle McGrade and son Hugh Boyd, joined a party of relatives at Buckeye Lake, on Friday and spent the day.

D. M. Geiger and family visited their relatives at Jersey Sunday.

Mrs. L. W. Jennings of Columbus, is the guest of her sister Mrs. Mary Lemley, this week.

Mrs. David Clether accompanied her mother to her home at Shelbyville, Ills., and will spend a couple of weeks in that city.

Mr. and Mrs. L. L. Lydie left here Sunday, to attend the golden wedding anniversary of the former's parents, at Pennsylvania.

D. P. Burch and wife and Miss Adda House, were Sunday guests of Mayor White and wife.

P. W. Longstrech an old soldier of the civil war, accompanied by his son, are in Mansfield attending the G. A. R. encampment this week.

W. H. Wiseman of Columbus is visiting his sister Mrs. Solomon Crist.

Chas. Burch of Coshocton stopped over night with friends here, "enroute" from Mansfield.

Mr. and Mrs. L. W. Reese and Mrs. Moore of Hanover, arrived here

## Delays Are Dangerous. Be Sure to Go to Church Next Sunday

THERE are some men who GO TO CHURCH only on great feast days, such as Easter, Christmas and New Year's. They have not lost all their religious faith. They still want to be considered Christians. But they will stay away from church Sunday after Sunday. They are not lacking in faith. They are careless. Their religion is not dead. But it does need an awakening.

The GO TO CHURCH movement particularly appeals to these men. They have been wavering in their support of the house of God. They needed a reminder. The GO TO CHURCH movement primarily was started to get up enthusiasm among the men who have remained away from church, not because these men had lost faith in the church, but because they had become careless and indifferent. When a man GOES TO CHURCH on Christmas or some of the other great feast days he indicates that he has not forgotten his early religious training.

MEN SHOULD DO MORE THAN GO TO CHURCH ON THE GREAT FEAST DAYS. THEY SHOULD GO TO CHURCH EVERY SUNDAY. THE CHURCH DOES NOT ASK MUCH OF THEIR TIME. AN HOUR EACH SUNDAY WILL SUFFICE. ONE HOUR OF ONE HUNDRED AND SIXTY-EIGHT IS NOT A GREAT SACRIFICE. ONE HUNDRED AND SIXTY-SEVEN HOURS A WEEK CAN BE DEVOTED TO THE WORLD. GOD ASKS ONLY AN HOUR. LET HIM HAVE IT. YOU'LL FEEL THE BETTER FOR IT. SO WILL YOUR WIFE, YOUR MOTHER, YOUR SISTERS, YOUR FRIENDS. THOUSANDS OF MEN ARE JOINING THE GO TO CHURCH MOVEMENT. YOU SHOULD HELP IT ALONG. GO NEXT SUNDAY. DON'T PUT IT OFF. DELAYS ARE DANGEROUS, BUT NEVER MORE SO THAN WHEN ONE DELAYS MAKING HIS PEACE WITH GOD.

The churches are filled to overflowing on Easter Sunday. They are filled to overflowing on Christmas day. They should be filled to overflowing every Sunday. Every Sunday is a feast day of our Lord. Don't put off your visit to the house of God until Christmas. Don't put it off until Easter!

GO TO CHURCH next Sunday and every Sunday!

## Our Reason

For getting up the delicious blend of Tastwel Coffee was because we believed the people were demanding a better quality than they were getting in the ordinary run of package coffee, and our steadily increasing sales of Tastwel are substantial proof that our reasoning was correct.

It is evidently better, more economical for the consumer to pay a slight increase in price and get a coffee that leaves a good taste and satisfying farwell than to buy an inferior grade at a little less and have that dissatisfied feeling which unites one for their day's labor.

## SECOND TASTWEL COFFEE CONTEST \$125.00 in New Prizes

SUBJECT—"Resolved, That Woman's Suffrage Should Be Universally Legalized in This Country."

\$50.00 for first, \$30.00 for second, \$20.00 for third, \$15.00 for fourth, \$10.00 for fifth prize, for the five best compositions either in the affirmative or negative, on the above subject, that contain not more than five hundred words and as few as the contributor may wish. Each contribution to be accompanied by a ballot from a can of TASTWEL Coffee and no composition will be considered without it.

This contest to end October 1, 1915, and awards will be made as soon as decisions are rendered.

## RURAL NORMAL SCHOOLS HAVE BEEN SUCCESS

FIFTY SUCH SCHOOLS HAVE  
BEEN ESTABLISHED AND  
APPROVED IN OHIO.

While There are 101 Applications  
Now on File, According to In-  
spector's Report.

(Associated Press Telegram)  
Columbus, June 26.—Organization of rural normal training courses in connection with first grade high schools under the new school code, has not detracted from attendance at colleges and universities, according to a report which Henry G. Williams, state normal school inspector, presented today to Superintendent of Instruction Frank W. Miller.

Mr. Williams declares only 50 of the 653 teachers and prospective teachers enrolled in the 31 county normal schools last fall said they would have gone to college or other normal school if the county institution had not been organized. The slight expense of the county schools is the main reason for this condition, he reported. Attention is called also to the fact that the only cost to the state for maintenance of these schools is \$1000, the maximum amount of aid that may be given from the state treasury. The balance of the cost is borne by local school districts.

Most students attending the county normal schools are under 18 years of age, having just graduated from high schools. Only 60 of the 513 attending these schools said they would not continue their training past the single year's course in the county normal school. The 416 who would continue their professional training and 27 declared their future action depended on their success in teaching the first year. Up to the present 50 county normal schools have been approved, and 101 applications for establishment of additional such schools are on file from school boards which maintain first grade rural high schools. With the \$52,000 appropriated by the last general assembly for 1915-16 and the same for the year 1916-17, 72 rural normal training schools can be established in each of the coming two years, Mr. Williams reported.

## Granville

(Special to The Advocate)

Granville, June 26.—Mrs. Edwin C. Roberts entertained her house guests, Mrs. Butterfield-Smith, yesterday afternoon with a charming party at her home in South Cherry street. About twenty friends of Mrs. Smith accepted the invitation and the hours between three and five were agreeably passed in light needle work and conversation. A novel diversion was furnished in a contest for the best button-hole worked on a fold of muslin handed each guest by the hostess, to which was attached a needle and thread. The judges found it difficult to decide, as all were so excellent, and finally announced a tie between Mrs. Helen Hunt and Mrs. Mildred Branstetter, the latter having drawn the lucky number was awarded the prize. A two course luncheon was served by the hostess, assisted by her sister, Miss Mary Roberts of Columbus, and her niece, Miss Faye Cleveland of Chicago, who is spending her vacation in Granville.

Mrs. H. A. Nixon entertained the members of the Women's Christian Temperance Union yesterday afternoon at her home in West Maple street. The large number present thoroughly enjoyed the afternoon's program as presented by Mrs. William Howe on the "Mission of Flowers." Each member read a quotation on the subject, which was found to be beautiful and appropriate. At the business session plans were discussed for participating in the Fourth of July celebration, and committees were elected to work up the proper representation of the organization in the parade. These committees will be published later. The social hour was delightfully led by Mrs. Nixon, her daughter, Miss Eva, and her daughter-in-law, Mrs. Justin Nixon of Minneapolis, Minn., who with her little sister is visiting at the Nixon home. Delicious refreshments were served by these hostesses.

The regular meeting of The King's Daughters was held last night in the parlors of the Presbyterian church with an unusually large number of members present. The entertainment of the evening was furnished by the losing side in the "rubber contest" which was decided some weeks ago, with over seventy-three dollars to the credit of the winners. The appetizing supper was given by the losers. An excellent program was presented with music by several members of the Presbyterian choir, Mrs. J. W. Rhorer, Miss Evangeline Davies, Miss Ruth Rockwood, and Miss Anna Bartlett. Mrs. Megaw gave two readings, "Angelina," and "The Courtin'," all greatly enjoyed. At the conclusion of the program the winners lined up for an old fashioned spelling bee, hotly contested by the sides chosen by Mrs. Jasper Jones and Miss Emma Lawler. These two finally were left alone on the floor, where word after word was successfully disposed of before victory was secured to Mrs. Jones. The King's Daughters organization in Granville is powerful and useful. Last year in the Fourth of July parade their float took the prize. This year, from all accounts, they must look to their laurels.

Dr. George A. Dorsey, curator of Fields Museum in Chicago, famous as an anthropologist and explorer, arrived this morning, accompanied by his daughter, Miss Dorothy, for a brief visit with his parents, Mr. and Mrs. E. J. Dorsey. Dr. Dorsey and his daughter are returning from a trip

## Newark Lodge No. 13 K. of P.

Newark Lodge No. 13 held its regular meeting on last Thursday night with a fair attendance. The chan-

cancellor reported those on the sick list much improved. In the last two weeks quite a few have been declared out of care.

In honor of the Masonic celebration all degrees were declared off and after a short business session the chancellor commander closed lodge early to enable the many Knights of Pythias who are also members of the Masons to take part in the exercises of the evening. On next Thursday night the Pythian rank will be conferred in full form and it would be encouraging and a big help to the officers and those who take part in the team work of all the seats in the hall could only be filled that night. Are you doing your share, brother, in helping to swell the attendance? If not, next week will be a good time to start.

## Roland Lodge, K. of P.

This week's meeting of Roland Lodge No. 395, Knights of Pythias, was fairly well attended. One new application received, while another was elected to membership on dismissal certificate. Reports of the grand

meeting were given by the representatives, Bros. C. L. Vanatta and H. S. Cleveland. Late in the evening the grand lodge trustee C. E. Root, No. 10 degree work, but after lodge closed a musical program was presented by a representative of the Edison Diamond Disc Phonograph Co., which was enjoyed by all. Ice cream and

refreshments were served by the committee. Come out to the square Tuesday night and get your supply of or they may be procured of Brother F. J. Woodcock at the Sherry-Harris furniture store on the north side of the square. Page rank next week.

## Daughters of Veterans

Philomena M. Venable Tent No. 25, Daughters of Veterans, held a tea and evening and had a good attendance, despite the fact that the president and many of the members were at the convention at Mansfield. Two applications were balloted on and these applicants, together with several others, will be members at our next regular meeting, July 13th.

Comrade O'Hannon was reported in the hospital and the unknown was learned that he would be taken home on Wednesday afternoon. All agreed to get him and Comrade Moran, who is visiting his daughter, Sister Nichols. The picture show committee gave a good report and it is expected the benefit will be an event of the near future. Reports were also had from different sisters of Mrs. Phil Sheridan Tent No. 41, the new tent recently organized at Frazzysburg. A sad feature of the evening was the dropping of the charter for our beloved sister, Rebecca Mikesell, who was with us at our last meeting. All sisters and comrades are urged to be present at the next regular meeting, July 13th. We expect to have a big initiation and a good social time.
